

GRAND-TEK TECHNOLOGY

MIMO Antenna Stand for SMA Connectors

Model No. MIMO-SB-SMA

Product features –

- Provides optimal relocation from your **MIMO** device to better position
- The stand helps to maximize your network range by moving your antennas to an better location.
- Avoids reflective or signal blocking obstacles
- Provides clearer signal paths to other devices
- With delicate **1.2** meter flexible 3-in-1 cable assembled
- Allows you to use the original MIMO antennas from your devices, to connect easily without tools
- The bottom cover of the stand can be released and used for ceiling mount at reversed side
- Provides a desktop, wall mount and ceiling mount
- No configuration software / Drive needed

Specification	
Connectors	Three reverse SMA jack connectors on the stand
	Three reverse SMA plug Connectors on the cable side
Cable Type Material	3 in 1 GDC-101B black color PVC
Cable length	1.2 meter
Stand color Material	Black ABS
Impedance	50 Ohm
Operating Temp.	-20°C C to 65°C
Storage Temp.	-30°C C to 75°C
Cable Attenuation	11b/g : 1.2dB/ meter 11a : 2.2dB/ meter
Dimension (L x W x H)	97 x 95 x 32 mm
Works with	Any MIMO AP/PCI with three detachable antennas with reverse SMA connectors
Package contents	<ul style="list-style-type: none"> • Antenna stand • Quick start guide • Wall mount accessory
